Accessioning and Disposal

Activity has been normal.

Reference

A special courier run was made by the Records Center to deliver urgently needed records to the Comptroller's Office and the Medical Staff.

Reference activity has been on the increase to the Intellofax cards retired to the Center by OCR/MD. On one day this week six requests were received for a total of one hundred fifty-eight 2000-card boxes (approximately 316,000 cards). Discussion with personnel of the Machine Division reveals that the reason for this increase is that they have been instructed by the AD/OCR to give faster and more complete coverage to the requests submitted to them by researchers.

The stock records for [REDACTED] publications have been converted to line items on 5x8 cards. This consolidation resulted in the release of three Kardex cabinets for use in the expansion of other records, thereby preventing the ordering of additional Kardex equipment by the Center.
